

1. INSTALL MAPS TO YOUR MEMORY CARD

- Insert memory card to the card reader and connect the card reader to your PC.
- Extract downloaded Zip archive to your PC's hard drive.
- Launch Navicore.exe installer application.
- Click on 'Install Navicore Personal' and follow the instructions provided by the installer.

2. INSERT THE MEMORY CARD TO THE PHONE

- Insert the Navicore memory card into the memory card slot of your mobile phone. To locate the memory card slot please refer the phone's user manual.
- Restart the phone, if necessary.

3. START AND ACTIVATE NAVICORE PERSONAL

- Go to the application menu on your phone and click Navicore program icon to start the program.
- When the program starts for the first time, you are prompted to enter a license key to activate the product in that phone. You will find the license key from a separate link on the download page. You can access the link also later through your personal order history.
- By default the program is automatically activated using SMS (text message). For more information about activation please refer the user manual.

Some phone models may require a separate installation of Navicore Personal from memory card to your phone before you can use it. For these models there is an installation package on the memory card. Please consult your phone's manual for further details.

4. CONNECT THE GPS RECEIVER

- Turn on Bluetooth on your phone when prompted to do so and turn on your GPS receiver.
- Create a connection between your phone and the GPS by choosing "Activate GPS" from Navicore Personal's menu.
- Wait until the program detects all available devices, and select your GPS receiver from the list of available Bluetooth devices.

USING MULTIPLE MAPS

If you install more than one map to your memory card it is possible change the active map from Navicore's options menu (**Navicore: Options > Settings > Region**). The selected region is then set as the default map for Navicore Personal.

The installer is compatible only with Windows XP, Windows 2000 and Windows 98SE operating systems. Please store your license code in a secure place. The code enables product registration, re-registration and upgrades. The code is also a proof of an authentic product copy.
